RE: SB 1

Dear Senator White:

I was scheduled to testify on behalf of the Mid Atlantic Solar Energy Industries Association before the Special Session on Wednesday of this week. Unfortunately, due to a significant backup on the eastern portion of the Turnpike, I was delayed arriving in Harrisburg until after the time for my scheduled testimony. Fortunately, you were provided written copies of the testimony that I intended to present on behalf of the Solar Industry and I did have the opportunity to hear most of the testimony provided and the questions posed by you and others on the panel. I thought it might be helpful if I submitted answers to the questions that you might have asked had I been present to testify. Accordingly, I am forwarding to you the attached Frequently Asked Questions (FAQs) that I hope provide additional insight on the Solar Industry position and respond to any questions you may have.

I am of course available to answer any other questions you or your staff may have and the Solar Industry lobbyist, Maureen Mulligan (717-512-5365), is also available to respond to any questions you may have.

Thank you for your attention to this matter.

Very truly yours,

Susan P. LeGros
